

Security Today Announces The Govies Government Security Award Winners for 2020

Dallas, Texas, March 2, 2020 - *Security Today* magazine, the only integrated product and technology magazine reaching the entire security market and securitytoday.com, the preeminent editorial website for the security industry, announced the 2020 winners in The Govies Government Security Awards competition today. The awards honor outstanding government security products in a variety of categories.

1105 Media's Infrastructure Solutions Group launched its government security awards program in 2009. In 2011, this successful program became known as The Govies. Participation in the program has been as strong as ever this year as government security continues to be an ongoing concern. Platinum and Gold designations within award categories will be announced during the ISC West Expo, which will be held March 18-20 at Sands Expo Center in Las Vegas, Nevada.

1105 Media's *Security Today*, securitytoday.com and *GovSec* branded media offer important information to the government security market through a vast portfolio of products. An independent panel of judges from the security industry selected the top entries in the 2020 categories and named them winners using criteria including Features, Innovation, User Friendliness, Interoperability, Quality, Design, Market Opportunity, and Impact in the Security Industry, Technical Advances, and Scalability. “For more than a decade we have been asking manufacturers to share their technology and solutions that best fit government security needs. Now, more than ever, government employees and facilities can select top-quality solutions,” said Ralph C. Jensen, editor-in-chief of *Security Today* and *GovSec* magazines and securitytoday.com. “The evolution of technology is moving at a rapid pace, and it is exciting to watch the development.”

In addition to being honored at ISC West, the winners will be featured on securitytoday.com and highlighted in a future magazine issue.
