***Security Today* Announces The Govies Government Security Award Winners for 2022**

Dallas, Texas, April 26, 2022 - *Security Today* magazine, the only integrated product and technology magazine reaching the entire security market and securitytoday.com, the preeminent editorial website for the security industry, has announced the 2022 winners in The Govies Government Security Awards competition. The awards honor outstanding government security products in a variety of categories.

1105 Media launched its government security awards program in 2009. In 2011, this successful program became known as The Govies. Participation in the program was greater than ever this year as government security continues to be an ongoing concern.

"The pandemic has wreaked havoc worldwide, but security manufacturers continued to work hard designing new security solutions for the government sector," said Ralph C. Jensen, editor in chief, *Security Today* magazine and securitytoday.com. "This is truly a testament of dedication and vision to ensure the best products are available for government use. Manufacturers should be proud of their employees for providing the best solutions in these challenging times. We appreciate the opportunity to enhance the marketplace by honoring these award winners."

An independent panel of judges from the security industry selected the top entries in the 2022 categories and named Platinum and Gold winners using criteria including Features, Innovation, User Friendliness, Interoperability, Quality, Design, Market Opportunity, and Impact in the Security Industry, Technical Advances, and Scalability.
